MEAT SLICER WITH STAINLESS STEEL BLADE

Feature:

- Skid proof rubber feet secure the slicer on the counter-top while slicing.
- Creates a more consistent, even product.
- On-off switch with waterproof cover
- Easy to clean and maintenance
- Fixed Device Handle for Pushing the Fixed Meat to Slice
- 1 additional whetstone and 1 additional belt

MS-6SS 200W Meat Slicer (Silver Base) with Stainless Steel Blade –

- SIZE : **L 5.5" X W 7.5" X H 4.5"**
- BLADE DIAMETER : **7.67"**
- VOLTAGE : **110V/ 60HZ**
- ROTARY SPEED : **510 r/min**

The Kitchenware Station MS-6SS high quality stainless steel blade professional semi- automatic meat food slicer is perfect for home use, caterers and chefs etc. MS-6SS features a compact design, its overall dimensions are 15.2" (L) * 14.8" (W) *13" (H). This meat slicer feature 200 watts of motor power, it is perfect for slicing meats(recommended), vegetables, cheeses and fruits smoothly, quickly and effortlessly up to .4" thick (0-10mm) with the numerical scale knob. MS-6SS also has a built-in dual whetstones sharpener and ring guard assembly for the blade, which is more convenient to keep a razor sharp edge on the blade, and safer to use. The slicer's blade of Kitchenware Station MS-6SS in silver is constructed of high quality stainless steel; and the body of MS-6SS is made of aluminum alloy which are more durable and less likely to corrode.

NON-STICK HONEYCOMB WOK & FRYING PAN

STAINLESS STEEL NON-STICK HONEYCOMB WOK WITH GLASS LID

O-117-01 NSHW32 – SIZE : 32cm

Honeycomb hexagon pans eliminate your main problems you face when cooking - even heat distribution for perfect cooking, and the burdensome task of scrubbing or soaking baked on messes after cooking. The secret is the patented elevated honeycomb stainless steel micro structure, combined with the lower ceramic non-stick surface. The result? A virtually indestructible non-stick surface with 100% even heat distribution.

You will love:

- Getting those restaurant quality pan sear marks on veggies and meats
- Easily cooking foods at the perfect temperature, without stress
- Using little to no oil or butter in your cooking
- Being able to use your metal spatula, knives, forks, whisks without scratching the non-stick surface
- Having commercial grade cookware in your home at an affordable price
- And the simplest, quickest clean up ever!

So how does it work? Well, we start with a clad constructed pan. That means there is an inner and outer layer of commercial restaurant grade stainless steel. These two layers then sandwich a middle third layer of aluminum. So the stainless steel provides superior non-stick properties and durability, while the aluminum core provides 100% even heat distribution in your pan. This is where you really start to get great cooking results.

STRUCTURAL FEATURES

Commercial Grade Construction : Stop buying department or discount store cookware. It simply does not last. By comparison, our honeycomb pan is T304 heavy-gauge stainless steel - the type most restaurants use. The amazing pan core is high grade aluminum, which eliminates hot spots in the pan. The handle is a chef quality double-riveted long handle, and features a beautiful brushed finish and forged kitchen hook.

While the non-stick and cooking attributes of this pan are superior to available cookware today, we must say the aesthetics make this pan one of the most attractive you bring into your kitchen. From the striking black ceramic and stainless hex surface, to the mirrored finish exterior, and the brushed satin exterior pan bottom, this pan elevates any kitchen.

Healthier Cooking : Using the honeycomb ceramic and stainless steel non-stick design actually creates much healthier cooking. There will be little to no need for using butter or oil in your cooking. With a true non-stick surface, you don't have to use unnecessary fats to keep food from sticking. For example, we've all buttered our pans before cooking eggs, fish, etc. But now you get perfectly seared and cooked food, but without the added calories.

Safe For Metal Utensils : Using honeycomb hex non-stick surface pans, you actually can use any type of metal utensil you want in the pan - metal spatulas, metal forks, knives, tongs, you name it. All without fear of scratching the ceramic surface due to the raised hex stainless steel protective barrier.

Use the Honeycomb Pan Everywhere : Imagine a pan that works perfectly on every type of cooking surface. The honeycomb pan works with electric stoves, gas stoves, induction cooktops, ovens, halogen cooktops, solid plate heating, barbecues, grills and even open campfires!

Aluminum has excellent heat conductivity and it's also lightweight and affordable. Non-stick surface allows food cooking with less fat and reduces risk of sticking and burning. The non-stick surface also prevents direct food contact to the aluminum which eliminate the worry of cooking acidic food may cause aluminum leaching. Whether you're frying, searing, or sauté the aluminum non-stick frying pan can handle all the heat in the kitchen.

Care and Use:

- Wash, rinse and dry before using it for the first time.
- Wash with soft side of sponge and mild detergent.
- Allow this product to cool down before washing and completely dry it before storing.
- Avoid liquid or powder detergent containing bleach or acidic substance.
- Hand washing recommended.
- For stubborn stains or burnt food, you can put some water and mild detergent on this product and boil it to loosen stubborn stains.
- Wooden utensils, silicone tools are recommended.

BAMBOO PRODUCTS

Q-131-01 - WOK BRUSH

**Q-131-02 WB300 BAMBOO WOK BRUSH –
PACKING :100PCS/CTN**

A wok brush is a type of kitchenware that is used to clean a wok. It is made of a bundle of split bamboo stalks tied at the top. It is used with the wok still hot and with hot water or water added to a heated wok to clean without degreaser so the wok does not rust.

To maintain the layer built up on the surface of the wok over time, the bamboo filaments must be strong enough to eliminate any remains stuck to the wok itself, and at the same time, soft enough that no damage is made to the surface of the wok.

3 X BAMBOO FRUIT BASKET

- Q-131-03 – SIZE : 22cm (8.5")
- Q-131-04 – SIZE : 26cm (10")

With its high quality stainless steel blades that assures excellent cutting performance, you will be surprised with how versatile it can be in everyday food preparation tasks! Comprised of a rich variety of colors that not only brighten up your lovely kitchen and cooking mood, but also performs greatly in preventing cross-contamination of foods.

- An exceptional choice for professional and home chefs with high hygiene standards.
- Crafted from 5Cr15MoV, a premium stainless steel material that prolong sharpness and edge retention.
- Ergonomically shaped polypropylene handle for secure and comfortable grip.
- Perfect tool for cutting, dicing, mincing or slicing.

Care & Use:

- Wash, rinse and dry the knife before using it for the first time.
- Avoid cutting on hard surface such as stone, glass or metal.
- Hand-wash with the soft side of sponge & mild detergent; rinse & dry immediately after washed.
- Avoid from using liquid or powder detergent containing bleach or highly acidic substance.
- Use knife sharpener or sharpening stone to sharpen the knife.
- Store the knife in a safe place such as knife block or on a magnetic strip on the wall to protect its edge & prevent injury.

Warning:

- Keep out of reach of children.
- Wash & dry carefully, keeping sharp edge away from your hands.
- Don't attempt to catch a knife when it is falling – better it hits the floor than cut your hand.

JAPANESE KNIVES

S-153-01 51028 2.5MM DEBA KNIFE –

SIZE : L 16.5 cm

THICKNESS : 2.5 mm

Deba Knife is the Japanese version of filleting knife. It can be same size as Santoku Knife, but it's more curved. They are perfect for fillet fish or removing meat from bone. The heft of the knife allows it to cut through the head and bones of a fish, and the smaller pointed tip fillet the flesh from the bones. The Deba Knife can be used for chicken and meat as well but not recommended for cutting through large bones.

Care & Use:

- Wash, rinse and dry the knife before using it for the first time.
- Hand-wash with the soft side of sponge & mild detergent; rinse & dry with a soft cloth.
- Avoid from using liquid or powder detergent containing bleach or highly acidic substance.
- Sharpen with stone sharpener to maintain the sharpness.
- Do not attempt to cut, hit or chop frozen products or bones. It can cause the blade chip or break.

S-153-02 51030 1.5MM NAKIRI KNIFE–

SIZE : L 17 cm

THICKNESS : 1.5 mm

Nakiri is namely a traditional Japanese vegetable knife. It has unique and single single-sided blade design. It also one of the best tools to slice and chop for difficult cut veggie such as daikon and butternut squash. The deep and flat blade make them perfectly shredding large veggie like cabbage or lettuce. Keenly sharp edge can cut very thin slices, its prefect if you like to add ribbons of vegetable as a garnish.

Care & Use:

- Wash, rinse and dry the knife before using it for the first time.
- Hand-wash with the soft side of sponge & mild detergent; rinse & dry with a soft cloth.
- Avoid from using liquid or powder detergent containing bleach or highly acidic substance.
- Sharpen with stone sharpener to maintain the sharpness.
- Do not attempt to cut, hit or chop frozen products or bones. It can cause the blade chip or break.
- Not recommended to cut small bones in fish or meat.

S-154-01 51031 1.5MM SANTOKU KNIFE–

SIZE : L 17 cm

THICKNESS : 1.5 mm

Santoku, literally mean “three virtues” or “three purposes” is a Japanese general-purpose kitchen knife. Much like a western chef knife they are versatile and applicable to variety of cutting tasks. The named is name because abilities to use for dicing, mincing and slicing for boneless meat, fish and vegetables.

Care & Use:

- Wash, rinse and dry the knife before using it for the first time.
- Hand-wash with the soft side of sponge & mild detergent; rinse & dry with a soft cloth.
- Avoid from using liquid or powder detergent containing bleach or highly acidic substance.
- Sharpen with stone sharpener to maintain the sharpness.
- Do not attempt to cut, hit or chop frozen products or bones. It can cause the blade chip or break.

S-154-02 51182 1.5MM GYUTO KNIFE–

SIZE : L 18.5 cm

THICKNESS : 1.5 mm

Gyuto literally means “beef sword”, it originally designed for slicing and disjuncting large cuts of meat. The Japanese version of the classic western style chef knife as a versatile, multi-purpose knife for cutting the vast majority of meats, fish, vegetable and fruits.

Care & Use:

- Wash, rinse and dry the knife before using it for the first time.
- Hand-wash with the soft side of sponge & mild detergent; rinse & dry with a soft cloth.
- Avoid from using liquid or powder detergent containing bleach or highly acidic substance.
- Sharpen with stone sharpener to maintain the sharpness.
- Do not attempt to cut, hit or chop frozen products or bones. It can cause the blade chip or break

- **S-155-01** 51190 2.5MM SASHIMI KNIFE–

V-180-01 JB2309 FOOD TONG – SIZE : L 10"

This scissor type food tongs would be a great addition to any commercial kitchen. Grab anything and everything hot out of the oven or barbecue pit without burning your hands. With the scissor grip and rounded tips, you can turn tender meats without worrying you will lose your grip, or break the meat off the bone. These tongs are designed for heavy use and are ideal for use in kitchens, buffets, banquets and catered events.

LOCKING TONG

- **V-180-02 QLT9RD-SI 9" HEAVY DUTY S/STEEL SILICONE TIP LOCKING TONG (RED) – SIZE : L 22.5 cm**
- **V-180-03 QLT12RD-SI 12" HEAVY DUTY S/STEEL SILICONE TIP LOCKING TONG (RED) – SIZE : L 30 cm**

In Western cuisine, it is always easier to manage the food with a tong than any other utensils while cooking. I.e., steak, shrimp, pasta and barbeque. Being aesthetically pleasing yet practical, Stainless Steel Locking Tong is ideal for lifting, turning and transferring food, whether you're panfrying or sautéing. Furthermore, the tip would not scratch the surface of the pan, thus it is safe for use with all types of cookware, including non-stick.

Features

1. High Quality Stainless Steel

- Although being lightweight, it is durable and sturdy.

2. High Versatility

- Can be paired with all type of cookware, including non-stick.

3. Hygiene & Sanitary

- Easy to keep clean, do not attract bacteria and do not pick up food particles.

4. Easy Storage

- Equipped with smart locking mechanism with circular loop that allows compact storage.

Care & Use:

- Do not leave the tong on hot pan.
- Use a soft sponge with dishwashing liquid to clean the locking tong after each use.
- Dry with clean cloth after washed.
- Hand wash recommended.

Caution:

- Do not leave it near or under high heat or open flame.
- Keep it away from highly acidic or alkaline substances.

- **V-181-01** T503-9B 9" S/S NYLON TIP LOCKING TONG (BLACK) – SIZE : **L 22.5 cm**
- **V-181-02** T503-12B 12" S/S NYLON TIP LOCKING TONG (BLACK) – SIZE : **L 30 cm**

JD-BMQ SERVICE MAT

Y-200-01 JD-BMQ SERVICE MAT

SIZE : L 45 cm x W 30 cm x H 1 cm

Service Mat JD-BMQ, a piece of rectangular rubber mat that is use to protect bar counter or countertop surface and soak up split drinks to reduce the messes. It's perfect for commercial bars and restaurants but also great to use at home. The soft but durable rubber mat and porous design helps to grip on wet glasses and dishes while also allowing them to dry quicker. It is a safer and more reliable soft surface to be included in your kitchen or bar.

Features:

1. Slip Prevention Texture

The bristled surface help to avoid slipping and keep sanitary while serving drinks or drying dishes. It allows air flow underneath efficiently air drying, also helps holding accidental spills and splashes.

2. Protection

It helps to protect glasses from scratches, broken rim and also prevent water stains on bar or countertop surface.

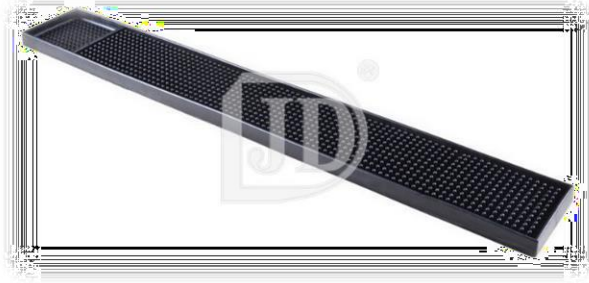

3. Easy to Clean

Just simply soak or wash with dishwashing detergent and rinse through.

Care and Use:

- Do not use abrasive utensils or knife on the product surface.
- Hand washing is recommended to keep this product in pristine shape and condition.
- Make sure this product is dry before storing.
- Do not place hot items such as pots and pans on the product.
- Keep away from extreme temperature and avoid exposure direct sunlight for longer lifespan.

JD-BMT BAR MAT

Y-201-01 JD-BMT BAR MAT

SIZE : L 60.5 cm x W 8.5 cm x H 1.5 cm

Bar Mat JD-BMT, a piece of practical long size rubber mat are perfect size for keeping shakers, mixing glasses and others tools sanitary while also keeps bar counter clean and dry. Bar mat have drainage area for jigger and the main area can holds up to six glasses. It's perfect for commercial bars and restaurants but also great to use at home. The soft but durable rubber mat and porous design helps to grip on wet glasses and bar tools allowing them to dry quicker. It is a safer and more reliable soft surface to be included in your kitchen or bar.

Features:

1. Slip Prevention Texture

The bristled surface help to avoid slipping and keep sanitary while serving drinks or drying dishes. It allows air flow underneath efficiently air drying, also helps holding accidental spills and splashes.

2. Protection

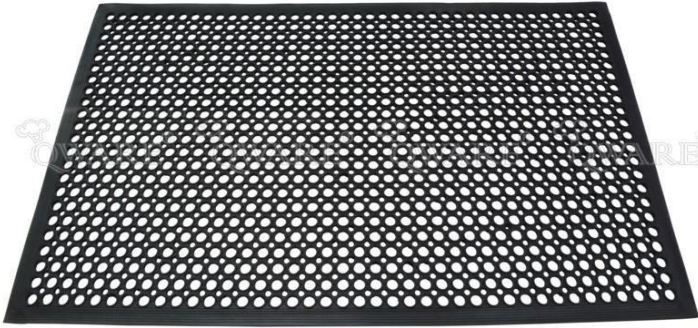

It helps to protect glasses from scratches, broken rim and also prevent water stains on bar or countertop surface.

3. Easy to Clean

Y-202-01 QFM35 5' x 3' BAR FLOOR MAT

SIZE : L 150 cm x W 90 cm

WEIGHT : ± 7.7 KG

COLOR : Black

Wet floor or slippery are among the leading reason for falling accidents. Having a piece of anti-slip floor mat set in place, especially in an area prone to wet conditions such as kitchen and bar areas is essential. This QFM35 Bar Floor Mat it's perfect to use at wet and dry area but not limited to commercial kitchen, restaurant, bar, cafeteria and etc. The anti-fatigue mat and drainage design allow grime and liquids to flow through mat and help keep standing surface safe and dry.

Features:

1. Enhance Stability

Durable and heavy-duty design makes cleaning and moving the mat easily. It can be rolled up for storage or to make cleaning simple.

2. Slip Resistance

This effectively eradicates any potential slip hazard, while its slip prevention texture ensures the rubber mats stay in place and the textures surface of the rubber mat provides a safe non-slip surface to walk on.

3. Beveled Edges

The rumpled edges of the rubber mat enable trolleys and cages to be easily transported over the mats and to prevent tripping hazard which suitability to place in high traffic areas.

4. Drainage Design

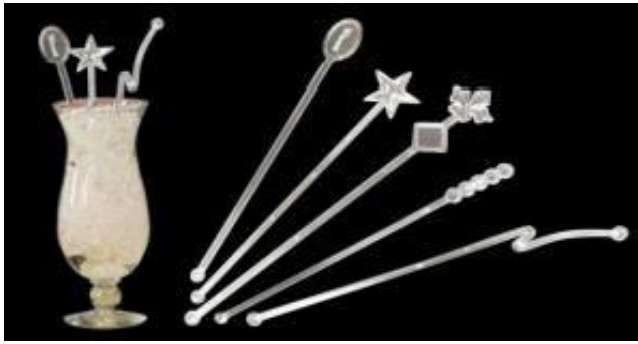

The construction of the rubber mat allow grime and liquids to flow through mat and help keep the standing surface safe and dry.

5. Anti-fatigue

The thick rubber mat provides outstanding comfort and feet support for prolonged periods of standing on working platform.

Care and Use:

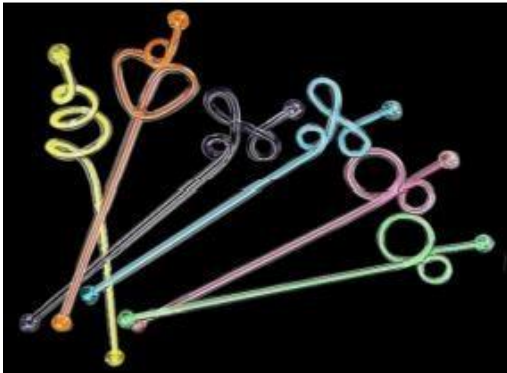

- Keep away from extreme temperature and avoid exposure direct sunlight for longer lifespan.
- Cleaning this product regularly with mild detergent and water to remove dirt to keep it hygiene.
- Make sure this product is dry before storing.
